

New York Stock Market

New York, January 13.—Quotations fell in a decisive way to-day on the Stock Exchange. In all departments of the list incrads were made on quoted values and there were frequent losses of 2 to 4 points. Sentiment was correspondingly bearish and the street apparently was suffering from the "blues."

Trading was more active and the uncertain tone of the early session was changed into weakness as the day wore on. Bear operators showed more confidence in their dealings and made a number of successful drives, with the conspers and coulers and steel as the especial objects of attack. Steel sold down to the lowest price since last May.

On the exchange and in customers rooms of commission houses the topic most often discussed to-day was the speech of President-Elect Wilson at Newark on Saturday. His remarks upon the banking and credit system attracted wide attention and the street showed bearish construction upon them. The weakness of the stock market was attributed largely to the influence upon market sentiment.

The copper group was again a sore snub in the list. It was admitted that leading companies had cut under the long established rate of 12½ c. There was another sharp break in the metal market in London.

The bears hammered the copper stocks with considerable effect. Amalgamated being the chief of the group. Coulers also betrayed weakness and among the specialties there was a large number of sharp declines. Telephone stocks were under usual pressure, which was assisted by rumors of governmental investigation.

Total sales to-day, 500,501, including Amalgamated Copper, 5,800; Atherton, 1,400; A. C. Line, 100; A. & O., 1,500; Lehigh Valley, 19,000; L. & N., 300; N. & W., 1,100; Reading, 7,500; Seaboard, 200; preferred, 200; Southern Railway, 1,500; preferred, 100; Tennessee Cooper, 300; steel, 120,300; Va. COTTON MARKETS.

New York, January 13.—The cotton market was generally quiet and uneventful, with the exception of two active movements, one now low ground for the movement under continued liquidation of eastern pressure, which seemed to be incurred by increased arrivals from the South and predictions that Indian bales will soon come to the headlines, remaining old crop supplies should the decline continue. The class was steady, but within a point or two of the lowest, with last session showing a decline of 11 to 13 points. A great amount of cotton section at New York since January 1 has been about 3,000 bales, and so far 2,000 bales have been delivered on January contracts.
